Description

In 1994, Autoform Development Inc. built the first removable hardtop for the Dodge Viper, debuting at VOI 1. Some of the design goals for the hardtop and window system include:

- *Increased headroom by four inches over the factory soft top.
- *Improved side sight line by 50% with a larger window opening.
- *More durable latching system using 500lb. South Co. under hood latches.
- *Improved styling with the first Double Bubble roof line for the Dodge Viper.

The Autoform Double Bubble Hardtop System comes with a floor or wall mountable stand, all brackets, latches and fasteners required for installation. Package also includes removable side windows and instructions. The hardtop is available in any factory color. Fits Dodge Vipers from 1992-1996.

In the "notes and special requests section in thwe following screens, please list the color and year of your car. Or call us with any additional questions or requests.

NOTE: Because we offer a large array of products, with highly-varied production times, the amount and type of products ordered week-to-week lead to fluctuating production times. Because of this, we do not offer a specific production and shipping schedule (except in specific pre-determined circumstances). Every effort will be made to adhere to our traditional approximate 2-month production timeline.
